

Please Support **H953** and **S609** in Massachusetts!

**I urge you to support legislation to
PROTECT PATIENT ASSISTANCE**

To date, a total of **20 states (and Puerto Rico & D.C.)** have already banned copay accumulator programs. It is time for the Commonwealth to do the same.

Many insurers and PBMs are now using copay accumulators that stop copay assistance from counting towards a patient's deductible and maximum out-of-pocket spending.

Copay accumulators allow health plans and PBMs to double dip and get paid TWICE – once from the patient assistance intended to help the patient, and then again by the patient's deductible. This practice is creating significant financial and health issues for the residents of Massachusetts.

**Stop health plans from double dipping at the expense of patients.
MASSACHUSETTS MUST ACT NOW!**

Dear _____,

Thank you for your consideration and support,
